

Business Energy Saver Program

On-Bill Repayment Application

Application Instructions and Guidelines

The PSE&G Business Energy Saver Program (the “Program”) offers businesses like yours an On-Bill Repayment (OBR) option to cover a portion of costs for Prescriptive Equipment, Custom, Direct Install and Energy Management program installations. Through the Program, the costs of those program installations will be added to your monthly PSE&G bill. Follow the simple steps in this OBR Application to begin the process. We look forward to working with you.

Follow This Easy Process

STEP 1

Download or Save a Copy of the OBR Application

- Complete this step before entering any information on the OBR Application. Do not enter information directly into the browser or digitally “Print”, as PDF functionality may be compromised. Only use the Adobe Acrobat program to edit this document. No other programs are accepted for use.

STEP 2

Complete the OBR Application

- Ensure that you have completed the customer information.
- Ensure that you complete all fields to allow program team the chance to fully review this application

STEP 3

Submit Your OBR Application

Submit OBR Application online by clicking **Submit OBR Application** at the end of this form

Email completed OBR Application to: **pseenergysaver@dnv.com**

Fax completed OBR Application to: **833-249-7734**

Have questions? Contact the program team at 1-844-300-7734

Credit Review

Terms and Conditions

PSE&G's Business Energy Saver programs offer customers incentives for the installation of energy efficiency measures and interest-free on-bill repayment, over a specified time, for the customer's share of the project cost.

The following terms are required for enrollment:

- Project attached to the Program must qualify for rebate or incentive.
- This application is subject to a more detailed review if over \$1M of cumulative OBR commitment.

PSE&G reserves the right to accept or reject any OBR Application in its sole discretion.

Upon credit review approval, the project review phase will begin on your specified project. An OBR Proposal will be created prior to installation of energy efficiency measures. The OBR Proposal will detail the savings and will outline repayment terms. After the energy efficiency project is executed and inspected, the final OBR agreement will be signed by the customer.

I have read, understand and agree to all of the Business Energy Saver Program requirements, terms and conditions set forth in this OBR Application. I understand that repayment calculations will be based on final-inspection results and on the applicable program documentation, and that my agency/company must meet all eligibility criteria and requirements in order to participate in the OBR Program. Any unapproved changes to project scope, costs or run hours, between the time the Repayment Documents are accepted and signed and the project is completed and the project's and my agency's/company's continued eligibility are verified, could result in repayment ineligibility.
